Comment or Question:

I am a SCUSD parent. I just want to know when 2023/24 school calendar will be provided to parents and students. We are now in May. It is not acceptable that next school calendar is not yet available. Parents, students, teachers and SCUSD staff need to know next year calendar to plan their activities and programs. At the minimum, we need to know when will be the first day of school next school year.

Both Elk Grove and San Juan have published their 2023/24 school calendars.

Comment or Question:

Dear Board members,

I would like to let you know that the I am very disappointed that FY 2023-24 school calendar is not available at this time. This is May now, this school year has only 19 school days left. Both Elk Grove and San Juan have published their FY 2023-24 calendars at their website several months ago. Students, teachers, parents, other district staff, and future students/parents should know FY 2023-24 calendar several months ago, The delay of publishing FY 2023-24 has negative impact to all.

Just a simple question, will FY 2023-24 school calendar time frame be same as current FY 2022-23 year?

Hey, my name is Onita stauch. I am a single mother and the mother to Noah stauch and halo walker whom attend Theodore Judah. Washington elementary in Sacramento ca is their home school but has been full for placement lately. I've been on the waitlist for a year and I'm hoping that you or someone can help me get a spot for 5th grade and 6th for the new school year. My children has missed so many days at the school across town because I do not own a vehicle and if I happen to miss the school bus, they unfortunately have to miss that school day. Their home school Washington elementary is in walking distance and they will be able to go to school every day if they are able to attend. I need those spots, 5th and 6th grade for the new school year please! My number is _____ Please call me or email me at _____

Comment or Question:

Hello, my name is Pablo Lopez. I have a son and daughter that attend Rosa Parks Elementary School. We moved here from San Jose, CA. I have to say this is the worst school system I've ever dealt with. My daughter is now in the 5th grade and thank god she is smart and has wonderful teachers (teachers in your district are NOT the problem. They're great). The problem is there's no money. Where is the money? Harmony has NEVER been on a field trip as long as she has been at Rosa Parks. I was told by my sons Occupational Therapist teacher there is ONE Maintenance man for the whole district. That is simply ridiculous. My son cannot even get full Time Special Education from your district because there is apparently no classes for Pre-K Autistic kids. The misappropriation of the funds in this district is evident. And if your response is the funds are not being misappropriated, then I'm willing to call you liars. When we speak to people about getting my son the maximum assistance available we are met with people that just shrug their shoulders at our discontent because they have no options and are completely broken down because everything about this district seems non functional. How is this even acceptable? How is everybody from the top down this incompetent and corrupt? Luckily my wife and I are vocal parents who advocate for our children. This fact seems to bother those who work for your district as I'm sure they are constantly hearing how you guys are doing our children a disservice. My wife broke down in tears during a IEP meeting today because there is NO placement for our son. He gets one hour of therapy per week and we're told there's nothing we can do until by I guess some miracle of god something opens up. We have been going through this with your district for an ENTIRE year. When we emailed the district last May of '22, we didn't hear back from anybody for practically 4 months. We finally got him started this year in April. We also have a MOU set up to try and get him back-dated therapy. Geovani Linares has just barely set that up for us. We've had numerous meetings with him and Jill Weber and their responses seem apathetic at best. How can you people even call yourselves educators when no one is advocating for these children? Rosa Parks has had so many different principals since my daughter started attending I've stopped keeping track. NONE of the Principals seem like

they even give a damn about these kids. The whole situation is disgusting. I'm going to start emailing your whole district, councilmen, City and State representatives. Because obviously this will more than likely fall on deaf ears. If you have any real concern for this someone will respond. If not you will hear from me one way or another. I hope it can be in a positive manner where we can make progress with these issues, but I'm prepared to make as much noise as possible. Have a pleasant day.
